Adam Lane

City Policy and Government Affairs Manager, Waymo

Adam Lane is the City Policy & Government Affairs Manager at Waymo, an autonomous driving technology company with a mission to be the world's most trusted driver. In this role, he oversees Waymo's relationship with local policy and government stakeholders in Los Angeles and other jurisdictions. Prior to Waymo, Adam served as the Vice President of Government Affairs and Programs for the Los Angeles Business Council (LABC), a progressive business advocacy and research organization, where he oversaw the organization's government affairs strategy and public policy priorities in the areas of clean energy, economic development, environmental sustainability, homelessness, housing, and transportation.

Adam received a Bachelor of Arts in Political Science with Magna Cum Laude honors from California State University, Northridge and a Master's Degree in Public Policy from the University of Southern California.

John Payne

Deputy Airport Director for Innovation & Technology, John Wayne Airport

John Payne is a seasoned business leader with over 20 years of experience in technology and information management. Prior to joining JWA, he was the CEO and principal consultant for Pueblo Technology Group, Inc., a management consulting firm that provides services to technology providers and the public-sector transportation industry (bus, light rail and aviation). Clients included Boingo, Deutsche Telekom, Intel, Siemens, Oracle, SITA, YVR, LAX, IND.

He spent 10 years in public sector IT as the CIO of San Francisco International Airport where he established and then oversaw front and back office operations. Prior to starting Pueblo Technology Group, John held senior technology management positions in business and software development for several VC-funded Internet startups, network architecture positions with DHL World Wide Express and Charles Schwab & Company.

John is active in multiple industry forums, has presented to the FCC as an expert witness, is a guest lecturer at the National Defense University's Information College in Washington, D. C and the University of California at Berkeley's Haas School of Business. He participates on the National Academies' Transportation Research Board and Airport Cooperative Research and the Safe Skies programs as a subject matter expert and panel chair.

Jack Symington

Director, City Climate Innovation, Los Angeles Cleantech Incubator (LACI)

Jack Symington is the Los Angeles Cleantech Incubator's (LACI) Director, City Climate Innovation, focusing on bringing LACI's model of connecting clean energy startups with municipalities to cities across the US. Previously, Jack managed LACI's medium and heavy-duty vehicle electrification efforts, including infrastructure planning and policy for drayage trucks and developing projects to bring zero emission goods movement to Southern California. Jack also managed the Transportation Electrification Partnership, a private/public partnership aimed to advance electrification in Los Angeles before the 2028 Olympic and Paralympic Games. Previously, Jack worked for BYD Motors, managing various CARB and CEC demonstration projects for on-road and off-road heavy-duty battery-electric trucks, coordinating with utilities across California on infrastructure installation, while also developing deployment strategies to fit fleets' needs.
